M. WITTE GIVEN PLENARY POWER

Will Head Russian Peace Commission At Conference.

DECLINATION OF M. MURAIEFF

Emperor Nicholas Has Appointed M. Witte Chief Plenipotentiary of Committee to Negotiate Peace---Plot to Assassinate the Czar Discovered.

St. Petersburg, July 13.—12:55 p.m.—Emperor Nicholas has signed the appointment of M. Witte, president of the committee of ministers to be chief plenipotentiary representing the Russian government in the peace negotiations to be conducted next month in the United States. The appointment, which was signed after midnight, clothes M. Witte with plenary powers. Official notification of the designation of M. Witte to head the mission was forwarded to Washington this morn-

M. WITTE.

ing. M. Witte will take passage on the North German Lloyd steamer, the Kaiser Wilhelm der Grosse, which sails from Cherbourg July 26.

Serglus Witte, the Russian plenipotentiary may be regarded as the leading Liberal statesman of Russia. For the last thirteen years he has been one of the strongest personalities in the Russian bureaucarcy although his political fortunes suffered a setback when he was compelled to resign the portfolio of minister of finance in August 1903, and again when, after being appointed president of the council of ministers in the same month his office gradually lost its importance until rumor of his intention to resign and go abroad had been persistently circulated. Witte is about 56 years old and has steadily worked his way up from the position of an under-paid railroad clerk who occasionally acted as porter to that of the leading statesmen of Russia in spite of the fact that his enemies are numerous and include some of the most powerful men in Russia. A man of large stature, big-limbed and muscular, standing over 6 feet high, Witte has the reputation of being harsh to his subordinates but his honesty and ability have never been douted even by his worst enemies. He was created a count in 1901.

M. Muraieff Declines.

Paris, July 14.—The St. Petersburg correspondent of the Echo De Paris, states that the declination of M. Muraieff to head the Russian peace mission was based on partly the state of his health and partly on the fact that his allowance for expenses to cover the period of his sojourn in America, was only 15,000 roubles, which amount he considered insufficient for the great cost of living in the United States. M. Witte twice refused to become the successor of M. Muraieff on the mission on the ground that he did not wish to be a mere figurehead in the transmission to Emperor Nicholas of the peace terms offered by Japan. His selection, therefore, cannot but be taken to mean that the emperor has yielded to his insistance that real [illegible] plenipotentiary be tendered on Russia's principal representative in the peace commission.

Roosevelt Hears of Appointment.

Oyster Bay, L. I., July 14.—President Roosevelt received from the Associated Press the first definite announcement of the declination of Muraieff to act as principal plenipotentiary of Russia in the conference and of the designation by the Russian emperor of M. Witte as the leading Russian envoy. Official notification of M. Witte's appointment has not reached the president from St. Petersburg, although it may come at any time.

Unofficially, the designation of M. Witte is regarded as most propitious. It is believed that his appointment is an assurance that peace in the far east is now in sight.

Beekman Winthrop, Governor of Porto Rico, and Edward C. Kent, chief justice of the supreme court of Arizonia, were guests of the president today at Sagamore Hill. They arrived from New York in time for luncheon and spent a part of the afternoon with the president. Governor Winthrop is in this country on a leave of absence.

OLD BOOK BRINGS BIG PRICE.

It Was Written by Shakespeare and Was Printed in 1605.

New York, July 13.—A perfect copy of the fourth quarto edition of Shakespeare's "Tragedie of King Richard the Third," has been sold at Sotheboys for $8,750 to A. Jackson, and it is understood it will go to America according to the London dispatch to the Times. The bok was printed in 1605 by Matthew E. Law "dwelling in by Thomas Creeden, and was sold Paules church yard at the signe of the fox, near S. Autsin's gate." It has 46 leaves.

It is believed that only two other copies of this edition exists. One is in the British museum and the other was sold by Mr. Lilly, to Mr. Halliwell, afterward Halliwell to Philipps, and is now in the Bodlean Library at Oxford. The example sold is of peculiar interest from the fact that in five places a contemporary autograph of William Penn is found. The signature is probably that of the celebrated admiral, the founder of Pennsylvania.

Young People's Christian Union Meets.

Hartford, Conn., July 14.—With a large attendance of Delegates from all parts of the country the national convention of the Young Peoples Christian Union of the Universalist church, began its formal sessions here today. The report of National Secretary Harry Adams Hersey, of Boston, reviewed the numerical growth of the union and the work accomplished during the last year in both the Senior and Junior bodies, and in the field. The figures submitted by state secretaries, he said, showed a membership of approximately 9,000, of which number 6,500 were in the senior and 2,500 in the junior union. The year's gain in membership had been about 1,000. Financially, the year has been a satisfactory one.

Salaries of Employes Reduced.

New York, July 14.—Sweeping reductions in the salaries of various employes of the Equitable society were announced today by Chairman Morton. The decreases will amount to 20 per cent on all salaries over $15,000 per annum; 15 per cent from all salaries between $9,000 and $15,000 both inclusive, and 10 per cent decreases from all salaries above $2,500 and below $9,000 per year. These changes become operative on August 1st next, and effect a saving of $150,000 to $200,000 a year. In the first, or 20 per cent class, may be included Chairman and Acting President Morton and Second Vice President Gage E. Tarbell.

Fatal Results of Duel.

Meridian, Miss., July 14.—W. E. Etheridge and A. N. Davis, two prominent men, joint owners of a sawmill at Hickory Miss., 18 miles west of here engaged in a duel, both being killed It is presumed that a business misunderstanding was the cause. Etheridge used a shotgun and Davis a revolver. Many shots were exchanged before both fell mortally wounded [illegible] died without making a statement of the trouble.

PLOT DISCOVERED TO KILL THE CZAR

250 Pounds of Dynamite Found Beneath His Castle.

POLICE MAKE MANY ARRETS

Emperor Nicholas Was Intending to Stop at the Castle of Ilinskje During His Stay at Moscow, But He Has Changed His Mind.

New York, July 14.—A World dispatch from London contains the following from the Vienna correspondent to the Daily Mail:

Private letters from St. Petersburg state that the police have discovered elaborate preparations for blowing up the castle of Ilinskoje, near Moscow, where the czar, with the imperial family, intended to take up a brief residence. Beneath the apartments designated for his majesty's use, a subterranean passage is said to have been found leading to a cellar where 250 pounds of dynamite lay concealed. The police have made many arrests, apprehending among others two engineers who conducted the cleaning and decorating of the apartments at the castle.

This intelligence, associated with the murder of Shuvaloff has made a deep impression. The czar has now given up all idea of staying at Ilinskoje.

Won't Disclose Assassin's Identity.

Moscow, July 14.—The authorities here decline to disclose the identity of the assassin of the prefect of police, Count Shuvaloff, last Tuesday, but it is known that a very prominent and important political capture has been made. After the prisoner's escape from the police station, where h h ehad been confined as a political suspect some days previous to the assassination of the prefect, Shuvaloff set all the police of Moscow at work to effect his recapture. The prisoner in the meantime shaved off his beard and while the police were searching for him everywhere, the man went to the prefect's office and committed the crime for which he will now be tried. The bullets of the revolver used by the prisoner were filled with poison. The crowd in the anteroom of the prefecture set upon the assassin who was dragged into the street and terribly beaten.

Rumors of Another Mutiny.

St. Petersburg, July 13.—6:40 p. m.—Rumors are current in this city that four grenadier regiments at Moscow have mutinied and that at Warsaw yesterday certain officers refused to give the command to their men to fire on the people who were making demonstrations. Not the slightest confirmation, however, is obtainable of these rumors.

More Money Than Necessary.

Chicago, July 14.—Subscriptions in Chicago to the Japanese loans are variously estimated from $10,000,000 to $15,000,000. The known amounts were those received by the Illinois Trust and Merchants' Loan and Trust company. The former reported approximately $2,350,000 and the latter $2,000,000. While the over subscription was regarded as larger than that of the previous loan, the subscribers were different. This time banks and banking houses predominated, while for the previous loan individual subscriptions were more numerous. The banks this time were heavy subscribers. The bonds are selling at 91½. The subscription price for both loans was the same, 87½.

Suicided Rather Than Starve.

Roseburg, Ore., July 14.—Information has reached here from Myrtle Creek that the badly decomposed body of Thomas Miller, an aged miner, was discovered near his cabin. One of Miller's feet were pinioned under a root of a tree, and a blood-stained knife lying near bore evidence that Miller, after realizing there was no hope of being rescued, had cut his throat rather than slowly starve to death. He was last seen about the 6th of June.

5,000 MILES IN SMALL BOAT.

Three Men Had Many Exciting Adventures and Narrow Escapes.

Watertown, N. Y., July 14.—James T. Wallace, E. R. Parsons and Charles Chapin, of Chicago, are now between Clayton and Oswego bound for the Thousand Islands, in a 35-foot sailing yacht in which they have traveled approximately 5,000 miles. They left by way of the drainage canal on October 18. The trip down the Mississippi consumed two months.

From Ne wOrleans they went to Florida, where they spent the latter part of the winter. They then came up the Atlantic coast and arriving at New York about a month ago, started up the Hudson. A naptha launch towed the men from Troy by canal to Oswego. The trio has had many exciting adventures and hairbreadth escapes and the men expect to arrive home between August 1 and 15.

NEGRO KILLS ELEVEN PEOPLE.

Awful Tragedy Takes Place on Board Boat In Honduras Waters.

New Orleans, July 14.—The Norwegian steamer Brattan, Captain H. Holm, from Celba, Honduras, reports a startling tragedy on the small trading schooner Olympia, bound from Utilla for Truxillo, via Ruatan, to purchase cattle.

The crew and passengers, 12 in number, were all murdered by a negro named Robert McGill, except one passenger, a young woman, who escaped by swimming ashore after having been struck on the head with a boat oar.

McGill is a resident of Utilla.

He shot all of his victims.

He also forced one of the crew of the schooner to scuttle her and then also shot him.

McGill escaped ashore in a dory and was subsequently captured at El Provenor. Honduras.

The captain of the Olympia had $1,400 in bills in his cabin.

Big Convention Closes at Portland.

Portland, Me., July 14.—The thousand or more members began today the closing sessions of the seventy-fifth annual convention of the American Institute of Instruction which opened Monday evening. The formal program will be completed this evening with a general session at which addresses will be made by President Carroll D. Wright of Clark college, and Professor Herbert E. Mills, of Vassar college. There were three subconventions in session today in addition to the general convention. The concluding business of the convention included the election of officers. There was also several addresses. Dr. J. R. Lynch, chief superintendent of instruction in New Brunswick, delivered an address upon the educational problems in his province.

Grand Lodge of Elks Adjourns.

Buffalo, N. Y., July 14.—When the Grand Lodge of Elks met today it was with the intention of completing business before final adjournment, even if a night session should be necessary. The rank and file of the order, and their families were entertained with a picnic at Park Lane and excursions to points of interest. One of the important matters remaining to be cinsidered by the grand lodge is the future of the Elks home at Bedford, Va., which is costing a large sum of money to maintain, and has but inmates. The changes will be recommended . The committees on laws mended. The committees on laws ent their annual reports.

Brother Sought the Poison.

Columbia, S. C., July 14.—The inquest over Robert Keith Dargan, late president of the Darlington Trust and Independent Oil Company, will be held Thursday. Startling facts developed Ingram Dargan Dargan, brother of the [illegible], purchased the poison during the afternoon. He and his brother went to their father's office at 8 o'clock and locked the door. Part of the carbolic acid was poured into a glass and the remainder into a bowl and to this was added a half pint of rye whisky. Robert Dargan drank the poison. When he was dead, Ingram Dargan reported the matter to a cousin, and went to his home, where he [illegible] locked in a room.

DISTRICT ATTORNEY WILL INVESTIGATE

Cotton Leakage Report Will Be Probed To Bottom.

SECRET SERVICE MEN TO AID

Investigation Will Be Held to See If Sufficient Evidence Can Be Secured to Justify Indictments Being Found by Grand Jury.

Washington, July 14—The investigation by the United States district attorney into the cotton leak case with the view of evolving sufficient evidence upon which to secure an indictment or indictments will be begun today or tomorrow. A room has been set apart for his use and the department in the agriculture and the employes of the division of the [illegible] again will be put through a [illegible] amination.

District Attorney Beach will be aided by officers of the secret service.

It is stated that at the previous investigation the employes of the division under the pledge of secrecy and protection in their positions if they divulge any information that would throw light on the subject talked freely and frankly. The officials are feeling some concern as to whether or not the New York [illegible] whose names already have been published and others whose names have not been made known can be prevailed upon to speak out.

Man Wanted on Serious Charge.

Raleigh, N. C., July 14.—Wade Grady has suddenly left Goldsboro where he was a sewing machine agent and the sheriff cannot find him. H. Godwin and James Godwin, his son-in-law, came to the town in search of him, stating that Grady last Friday took a young daughter of Godwin's [illegible] in a buggy, and that the girl's brother-in-law came up while Grady was in the act of committing a felonious assault. A warrant was at once issued but Grady had already taken the train and departed. It is the second case of the kind in the state this week, Salisboro.

Illinois Bank Goes to Wall.

Springfield, O., July 14.—The Citizens' bank of Yellow Springs, a private institution, failed to open its doors this morning. There had not been the slightest intimation that the bank was in trouble until after banking hours this morning. The bank was a private institution and in the absence of any statement is thought to owe depositors between $25,000 and $30,000. It had on deposit the village and school board funds practically all the lodge and church money and nearly all the individual deposits of the village. Business has practically been suspended in the town and there is much excitement.

Contract for Carrying Freight.

New York, July 14.—The American Hawaiian Construction company has just closed a contract with the Tehuantepec National Railroad company of Mexico, through S. Pearson & Co., limited, of London, the managing directors for the transportation of all the business of the steamship company between the Atlantic and Pacific ports over the railroad which will be completed the latter part of next year. The American-Hawaiian company is said to control to a large extent the transportation of sugar from the islands to the United States, and now has in commission a fleet of nine steamers in which an aggregate cargo capacity of 75,000 tons.

Released from Quarantine.

New York, July 14.—Nineteen of the 25 persons removed from the steamer Allianca for observation yesterday upon her arrival from the isthmus were released today. They had been removed from the steamer to the detention hospital because they were suffering from excessive temperature. The remaining six are held for further observation.

OFFICIAL SURVEYORS HAVE ARRIVED HERE

Are Accompanied by Dr. Andrew Sledd of the University.

WILL SURVEY THE GROUNDS

Dr. Sledd and Party Visited the New University Site and Expressed Themselves as Well Pleased—Work of Surveying to Begin Monday.

Matters have assumed a rather definite proportion in the matter of locating the University of Florida in Gainesville, since the surveying corps has arrived in the city and are preparing to begin the actual work of laying off the University grounds.

Prof. N. H. Cox, professor of civil engineering, and his assistant, P. G. Exman, accompanied by Dr. Andrew Sledd, president of the University, arrived Friday, and in the afternoon, in company with Mayor W. R. Thomas and others, visited the grounds recently donated by the city, about one mile west of the court house. After careful examination of the grounds, Dr. Sledd expressed himself as being pleased with the location, as a better site could not have been secured.

Prof. Cox expects to begin the actual work of laying off the grounds Monday morning and will be engaged for about two weeks. He will be assisted by Surveyor J. W. Patton and a local force.

In speaking of the University Friday, Dr. Sledd stated that the faculty for the coming season would be the best the State has ever known, and will equal anything in the South. There will be ten Ph. D.'s, which have been selected from the leading institutions of the world, and the other members of the faculty will be specialists in their respective branches. Dr. Sledd is very sanguine that the coming session of the University will prove a great success, and he and his efficient faculty are determined to work to that end.

Dr. Sledd expects to make his departure today for Lake City, but the people expect to see more of him in future. This is his first visit to Gainesville and he is well pleased with both the city and its people.

COMPANY REORGANIZED.

Miller & Mallard Company Consolidated With J. R. Porter.

The Times-Union of the 11th inst. has the following to say regarding the reorganization of the Miller & Mallard Grocery Company, which will be of interest, since the parties connected with the firm, are erstwhile residents of Gainesville and Alachua county:

"The reorganization of one of the large wholesale grocery companies of Jacksonville took place recently, when J. R. Porter became connected with C. B. Mallard and others and a general change in the personnel of the Miller & Mallard Company was effected.

"Philip Miller, who was the senior member of the former firm, retires from active connection with the company and J. R. Porter has combined his business and that of the new concern. The company is to be known as the Mallard-Porter Company. The officers of the company are as follows:

"President—C. B. Mallard.

"Vice-Presidents—J. R. Porter and A. B. Chitty.

"Secretary—C. N. Kirkland.

"Treasurer—C. N. Griffin.

"A. B. Chitty, who came here several months ago, and has been identified with another wholesale concern, has cast his lot with the new company, and will be one of the most active members of the firm in the management of the business. He is a young man of good business training and brings to the firm a knowledge of the conditions of the State which will be of great value."

The Colsons Are Happy.

A letter from Perry M. Colson, who, with his family, left this city a few days ago for Asheville, N. C., states that they arrived safely, and are delightfully located.

"This is a delightful place," continued Mr. Colson. "The weather is nice and cool and we are compelled to sleep under cover for comfort. This city is 2,000 feet above sea level, and one of the prettiest places I ever saw. It is a great summer and winter resort, and there are now about 20,000 visitors here."

Mr. Colson states that he would like to remain with his family during the summer, but business calls him home, and he expects to return Monday next.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood.

It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

UNMAILABLE POSTAL CARDS.

Souvenirs With Pictures of the Devil Held to be Profane.

Postal cards containing pictures that border on the profane will not be allowed the privilege of the United States mails is that latest decision of the Postoffice Department. The following article, sent out from Washington, contains information of interest to persons who have been in the habit of sending so-called souvenir cards through the mails:

"In the Postoffice Department's crusade against questionable mail matter, attention has been directed to souvenir postal cards that border on the profane. Instructions have been issued by the postmaster-general that such missives must not be delivered to the person addressed."

So the fellow who blows in his penny for the card that bears the inscription, "I'm having a devil of a time," with the devil represented by a flaming red figure of his Satanic majesty, will be greatly disappointed when he learns that the cent stamp affixed carried his cheerful message to Postmaster-General Cortelyou instead of to his chum.

Swells of Ancient Egypt.

From what has come down to us, written, painted or chiseled, the Egyptian court must have been a great swell. The details of the twelfth dynasty show Egyptian elegance at its best. The king has a male housekeeper, his intimate friends, called "superintendent of the royal mansion house." There was a "superintendent of the baking house," and the "mixer of drinks had the title of 'servant of the sideboard.'" Perhaps he was a butler and regulated the supply of wines from the cellar. There were cleaners, porters and handicraft men busy in attending to the master. The "preparer of sweets" must have been a confectioner. The Egyptian when he was no longer mortal had visions of being well fed in the hereafter, as he believed he would be nourished in his particular heaven with abundant goose and beef. Offerings to the gods show the variety of the Egyptian menu, and in one are included ten kinds of cooked meat, five kinds of birds or game, sixteen varieties of bread and cake, six assorted wines, four varieties of beers, eleven sorts of fruits and an endless number of sweet things.

Baseball Players and Foot Racers!

Louis J. Kruger, ex-champion long distance foot racer of Germany and Holland writes Oct. 27, 1901: "During my training of eight weeks' foot races at Salt Lake City, in April last, I used Ballard's Snow Liniment to my greatest satisfaction. Therefore, I highly recommend Snow Liniment to all who are troubled with sprains, bruises or rheumatism." 25c, 50c and $1. Sold by W. M. Johnson.

Flowers In Northern Russia.

An English traveler in northern Russia writes to the Gardener's Chronicle that nothing surprised him more than the universal presence of well grown flowering plants in dwelling rooms. Even in the cells of monasteries and in the studios of city photographers farther north than Archangel he found such plants as oleanders, crotons pelargoniums and fuchsias in almost every room. The double windows, so necessary to keep out the cold, have a draft tight space between them filled with flowering plants, and it does not seem necessary to open them for air during the short hot summer. From September to June the country is buried in snow and shut in by ice. The average temperature for January is only 10 degrees. The July temperature, however, has an average of 60 degrees F., which is hardly to be wondered at when it is remembered that the sun shines twenty-two hours out of the twenty four.

Knox and Scotland.

Scotland owes to Knox not its existing Presbyterian government—this was the subsequent work of Andrew Melville—but that which is the chief feature and main strength of Presbyterianism—viz, the full recognition (lacking in Episcopacy) of the Christian laity in the administration of the church, combined with that orderly subornation (which Congregationalism fails to secure) of the whole church to one representative and supreme authority. It is owing to Knox and his fellow reformers that the Scottish church avoids the danger both of hierarchy and of anarchy.—"John Knox," by Professor Henry Cowan.

Indigestion,

With its companions, heartburn, flatulence, torpidity of the liver, constipation, palpitation of the heart, poor blood, headache and other nervous symptoms, sallow skin, foul tongue, offensive breath and a legion of other ailments, is at once the most widespread and destructive malady among the American people. The Herbine treatment will cure all these troubles. 50c bottle. Sold by W. M. Johnson.

THE SPECIAL SCHOOL ELECTION THURSDAY

Several Precincts Voted Upon This Question and All Carried.

EXTENDING THE ADVANTAGES

The People Are Now Awake to the Necessity of Good School and Longer Terms, and are Asserting Their Rights by the Ballot.

An election was held in several districts throughout the county Thursday to determine whether or not certain districts should be made sub-school districts, whether other districts should be extended, and for the selection of trustees for a number of sub-school districts.

The returns were received Friday from Arredondo, Archer, Hague, Santa Fe, Perseverance, High Springs, Orange Heights, Windsor and Rocky Point.

While the returns will not be officially canvassed until next Tuesday, it is understood that all precincts voted for the new districts or the extension of districts. The three-millage assessment was also approved.

In Gainesville it is understood that the voters agreed to extend the territory, to pay the three-mill tax, and also re-elected Messrs. W. W. Hampson, J. H. Vidal and George W. Hyde as trustees. These gentlemen in the past have demonstrated that they were competent to handle the school affairs of the district, and the people were so well pleased that they gladly voted to return them.

The Brannan-Whiting Wedding.

On Thursday afternoon the home of Mr. and Mrs. C. E. Whiting was the scene of a very pretty but quiet wedding, the contracting parties being Chas. L. Brannan of Tampa and Miss Mattie Whiting of this city.

Only a few intimate friends and members of the family witnessed the ceremony, which was performed by Rev. S. B. Rogers of the First Baptist Church precisely at 4 o'clock. Mrs. O. H. Buell, as matron of honor, and Miss Fannie Whiting as bridesmaid, entered the parlor followed by the bride leaning upon the arm of her father. They were met at the center of the room by the groom and his best man, O. H. Buell, where the beautiful and impressive ceremony was performed which joined together two loving hearts to beat as one.

The bride, always pretty, was never more so than on this occasion. She wore a gown of white mull and carried in her hand a bouquet of white azaleas. She was a vision of fairy loveliness from the crown of her lovely tresses to the soles of her dainty slippered feet.

The groom wore the conventional black and looked all that he is, noble and handsome.

After the happy couple received congratulations of their friends, delicious refreshments were served informally.

After about two weeks spent with relatives and friends in this city, Mr. and Mrs. Brannan expect to make their departure for Tampa, where they expect to reside in the future.

Mrs. Brannan has many friends in this city won by her sweet and lovable disposition, all of whom will extend congratulations and regret her absence in their midst. A GUEST.

Feel Impending Doom.

The feeling of impending doom in the minds of many victims of Bright's disease and diabetes has been changed to thankfulness by the benefit derived from taking Foley's Kidney Cure. It will cure incipient Bright's disease and diabetes and even in the worst cases gives comfort and relief. Slight disorders are cured in a few days. "I had diabetes in its worst form," writes Marion Lee of Dunreath, Ind. "I tried eight physicians without relief. Only three bottles of Foley's Kidney Cure made me a well man." J. W. McCollom & Co.

SADIE ROBINSON.
Pretty Girl Suffered From Nervousness and Pelvic Catarrh—Found Quick Relief in a Few Days.

NERVOUSNESS AND WEAKNESS CURED BY PE-RU-NA.

Miss Sadie Robinson, 4 Rand street, Malden, Mass., writes:

"Peruna was recommended to me about a year ago as an excellent remedy for the troubles peculiar to our sex, and as I found that all that was said of this medicine was true, I am pleased to endorse it.

"I began to use it about seven months ago for weakness and nervousness, caused from overwork and sleeplessness, and found that in a few days I began to grow strong, my appetite increased and I began to sleep better, consequently my nervousness passed away and the weakness in the pelvic organs soon disappeared and I have been well and strong ever since."

THE NEWS FROM ARNO.

Election for Sub-School District Trustees—Personal Notes.

Arno, July 14.—Your correspondent has been so very busy harvesting his peach crop for several weeks that news from Arno has been neglected.

The peach crop did not reach more than one-half what it had been estimated to be and returns were not so good as last year. F. P. Henderson and W. M. Gramling both think the cause was caused by using the wrong formula of fertilizer, as the fruit was poorly colored and had very poor carrying qualities. The trees, however, are looking better than usual and the orchards look very promising for another crop.

Corn in this community is below the average in condition, but the cotton crop is above the average for the time of year.

The election for trustees for the Stroble district was held today with the result that M. A. Osteen, W. F. Barry and L. W. Knight were elected trustees for the ensuing term without opposition, with Prof. DeLand as principal and Miss Rosa May as assistant, and the prospect of a united and enthusiastic patronage. The outlook for the Stroble school is very good. Everyone that we have heard speak of the appointment of the above teachers to this school are very much pleased.

Rev. F. M. Hartman, pastor of the Forest Grove Church, has announced that at his next appointment here, which is the first Sunday in August, he will hold a series of meetings and Dr. Rogers, pastor of the Baptist church in Gainesville, is expected to assist him.

John F. Cox, mayor of Lakeland, wife and children have returned to Lakeland after several days visit with F. P. Henderson, Mrs. Cox's father.

Miss Lessie May, who has been very sick at Dunnellon, has so far recovered that she has returned home to the great joy of her family and many friends. Her early recovery was perhaps due more to the nursing by her devoted mother, who went to her immediately upon hearing of her illness.

Miss Annie Price has just received the appointment as a teacher in the school at Abbeville, Ga., where she attended school last year. Her sister, Miss Ida, will go with her and attend the school the coming year.

Mrs. Rainey is visiting her daughter, Mrs. W. F. Barry, this week.

Mrs. T. J. Terry and children have returned from an extended visit to Co-

Adams-Getzen.

Miss Julia Maude Getzen and Dr. J. Benj. Adams were quietly married Wednesday afternoon at 5 o'clock at the home of the bride's parents, Capt. and Mrs. T. W. Getzen of Fort White. Rev. N. B. Plummer, a Baptist divine of Ocala, performed the ceremony. The bride was beautifully gowned in white silk with the tulle veil and orange blossoms. The groom wore the conventional black. Dr. and Mrs. Adams will make their future home in Augusta, Ga., where Dr. Adams has a lucrative practice. A GUEST.

The Diamond Cure.

The latest news from Paris is that they have discovered a diamond cure for consumption. If you fear consumption or pneumonia, it will, however, be best for you to take that great remedy mentioned by W. T. McGee of Vanleer, Tenn. "I had a cough, for fourteen years. Nothing helped me, until I took Dr. King's New Discovery for Consumption, Coughs and Colds, which gave instant relief, and effected a permanent cure." Unequalled quick cure for throat and lung troubles. At all drug stores; price 50c and $1, guaranteed. Trial bottle free.

The Boss Worm Medicine.

H. P. Kumpe, druggist, Leighton, Ala., writes: "One of my customers had a child which was sick, and threw up all food, could retain nothing on its stomach. He bought one bottle of White's Cream Vermifuge, and it brought up 119 worms from the child. It's the boss worm medicine in the world." White's Cream Vermifuge is also the children's tonic. It improves their digestion and assimilation of food, strengthens their nervous system and restores them to the health, vigor and elasticity of spirits natural to childhood. Sold by W. M. Johnson.

Young Woman Burned to Death.

Nashville, Tenn., July 14—Mrs. Hardaway was burned to death at her home on Arrington street. She had sprinkled gasoline over the floor of her room liberally to destroy insects. Shortly afterward she entered the room and struck a match. There was an instant explosion and her clothes were ignited, causing her death.

GOT HIS HAIR BACK.

Was Perfectly Bald When He Started to Use Newbro's Herpicide.

Frederick Manuell, Maryland block, Butte, Montana, bought a bottle of Newbro's Herpicide, April 6, '99, and began to use it for entire baldness. The hair follicles in his scalp were not dead and in 20 days he had hair all over his head. On July 2 he writes, "and today my hair is as thick and luxuriant as any one could wish." Newbro's Herpicide works on an old principle and with a new discovery—destroy the cause and you remove the effect. Herpicide destroys the germ that causes dandruff, falling hair, and finally baldness, so that with the cause gone the effect cannot remain. Stops falling hair at once and a new growth starts. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

How lucky we are about our Independence Day, to know that it comes on July 4th. There has been some talk as to whether the 4th came on the 2d, 3d or 5th, but Sidney Herbert says we're all right and that the 4th comes on July 4th, and no historian can change it, nor can Congress. It's a real consolation to have one day that we are not balled-up on.

We remember reading of a lady of nobility in London, Eng., saving the life of a child in the street who was bitten by a mad dog by sucking the virus from the wound. But from Stroudsburg, Pa., comes the story of Miss Lucy Swartz, 16 years of age, who saved the life of a boy that had been bitten by a rattlesnake. The rattler struck the boy in the right arm. The girl ripped the shirt sleeve open and saw his arm was getting dark. She took his pen-knife, cut a gash in the arm and sucked the poison from his arm, thus saving his life at the peril of her own. PHOSPHATE PRODUCTION.

"The year 1904 was a prosperous one for the producers of phosphate rock in the United States," says Dr. Edmund Otis Hovey of the United States Geological Survey in a report recently published on the production of phosphate rock in 1904. More rock was mined than ever before, and better prices were obtained than have been reported since 1893. Many farmers report production and sales during 1904, but the bulk of the business was carried on by a comparatively small number of large producers. Consolidation seems to be the order of the day.

The total quantity of phosphate rock marketed from the mines during 1904 amounted to 1,874,428 long tons, valued at $6,873,625, an increase in quantity over the output of 1903 of 282,852 long tons and $1,554 331 in value. The total quantity of phosphate rock reported as mined during 1904 was 1,991,169 long tons, as compared with 1,618,799 long tons in 1903. A stock of 116,741 long tons is reported as having been on hand January 1, 1905. On the other hand, the sale of 66,245 long tons of the quantity of phosphate rock on hand January 1, 1904, is reported.

The State of Florida continues to be the largest producer of phosphate rock in the United States, its output forming more than one-half the total production of the country. A comparison of the production by varieties in this State during 1902 and 1903 shows that there has been an increase of about 29 per cent in the output of hard rock, an increase of about 18 per cent in that of land pebble, and an increase of more than 43 per cent in that of river pebble. The total marketed production of Florida phosphate was 1,072,951 long tons, valued at $3,974,304, as compared with 860,386 long tons, valued at $2,986,824, in 1903, which shows an average increase in value per ton at the mines from $3.47 in 1903 to $3.70 in 1904. The reports also show that 72,647 long tons of hard rock were mined but not marketed, and that 57,511 long tons of the stock carried over from previous years were marketed in 1904. Hence the total quantity mined was 1,088,087 long tons.

In South Carolina the diminution in production which has been shown by the reports for the last five years has received a slight check. There was an increase of 11 per cent in the production of land rock, which more than made good the continued decline in river rock. The total production of South Carolina phosphate rock in 1904 was 270,806 long tons, valued at $861,817, as compared with 258,540 long tons valued at $783,803 in 1903, distributed as follows: Land rock, 258,806 long tons, valued at $830,117, as compared with 233,540 long tons valued at $721,303 in 1903; river rock 12,000 long tons valued at $31,200 in 1904, as compared with 25,000 long tons valued at $62,500 in 1903.

Tennessee showed in 1904 the largest marketed output since the beginning of the industry eleven years ago. The marketed production of the State for 1904 was 530,571 long tons valued at $2,037,804, as compared with 460,530 long tons valued at $1,543,567 in 1903. The increase in average value at the mines was $3.35 a long ton in 1903 to $3 34 a long ton in 1904.

Pennsylvania is the only other State that reported a production of phosphate during 1904. It reported but 100 long tons valued at $200.

The imports of fertilizers during the year had a total value of $1,324,189. These included 37,127 long tons of guano valued at $498,702 and 134,467 long tons of crude phosphates and other substances used for fertilizing purposes and valued at $825,487.

FROM OUR FRIENDS.

Since the Board of Control has decided to locate the University in Gainesville, we have received many letters of congratulation, some of which will be highly appreciated by our people. We append a few:

"BOWLING GREEN, Ky., July 12, 1905.
"HON. H. H. McCREARY,
"Gainesville, Fla.

"MY DEAR SIR—I am glad to know Gainesville succeeded in getting the University. If the right man is put at the head Florida will have a University in fact as well as in name.

"Very truly,
"J. M. GUILLIAMS.

Senator McCreary has a personal letter from a member of the last Senate, which says: "I congratulate the people of your city upon securing the State University. This is especially agreeable to me from the fact that I now know that my efforts in behalf of the Buckman bill, which was personally against my wishes, have been to the material advantage of those whom I have always regarded as among my best friends."

The following letter needs no comment from us, coming as it does from one of the faculty of the East Florida Seminary—a noble man and eminent instructor:

"BARNESVILLE, Ga., July 13, 1905.
"THE GAINESVILLE DAILY SUN,
"Gainesville, Fla.

"GENTLEMEN—Enclosed find postoffice order for $2.50 to pay my subscription to The Sun. The issue bringing me the glad news that Gainesville gets the University was worth the money and more. Great is Gainesville and verily The Sun is its prophet.

"Yours truly,
"G. F. OLIPHANT."

Killed Young Man Over Woman.

Wheeling, W. Va., July 14.—William M. Ray was stabbed to death today by John Hawthorne at Ashton, near here. The young men were rivals, the killing being done in the presence of the woman who was the incidental cause of the tragedy.

You Get Up

In the morning tired, languid, and frequently with a headache that is almost unbearable. You have been nervous, restless and sleepless night after night, and gloomy and irritable during the day. This nervous exhaustion affects the heart, lungs and other organs that depend upon the nerves for motive power. Then the stomach fails to digest the food; the heart action is weak, and circulation poor, and the kidneys and liver inactive.

What you need is not a stomach, head, kidney or liver medicine, but Dr. Miles' Nervine to soothe and feed the nerves and build nerve tissue.

"My wife was subject to severe mental strain, which resulted in nervous prostration. The first symptoms were uncontrollable crying and melancholy spells, which increased to such an extent that for over a year she would have a spell every day of from four to six hours duration. She required the constant attention of her physician and attendants. She suffered great pain and anguish. The best physicians attending her could give no relief, and she finally became almost of unsound mind. As a last resort I began giving her Dr. Miles' Nervine, and Tonic, and noticed that her spells next day were not so severe, and they gradually disappeared altogether. She has had no recurrence of the spells, and is gaining in health and strength.
J. P. OVERHOLSER, Sterling, Ill.

Dr. Miles' Nervine is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.

THE MANLY APOLOGY.

Story of One Case Where It Was Due and Was Not Given.

It is a brave man who can apologize. It is one of the highest attributes of a gentleman. I never yet knew anybody who lost money by an apology. I know many men who made some. I know a man in the city of London who spoke harshly to his confidential clerk. He accused him of having mislaid or lost a certain long and important letter. The clerk said very politely he had never seen such a document. The merchant said, "Don't be a fool in talking such nonsense." The clerk gave in his resignation. It was the duty of this clerk to call at his employer's house in the evening after dinner to take to the office next morning such letters as would require attention. There he found the missing letter. The merchant had placed it, with a few others, in his overcoat pocket to read carefully at home in the evening. He said: "I did not know I had done that. You must withdraw your resignation. I will increase your salary." But never a word of manly apology. The incident left its sting behind. The confidence and trust the clerk had in his employer were lost. So, a year later, when this confidential clerk came into a big sum of money he refused the partnership that was offered him; he joined an opposition firm, and the profits of this merchant have fallen in four years from £15,000 a year to £3,000. He lost that, and he has gained premature old age and much mental anxiety. This is a true story.

THE DUKE'S DECISION.

Wellington's Verdict In the Case of a Stolen Kiss.

"The Military Reminiscences of a Retired Colonel" contains the following story relating how the Duke of Wellington overcame a somewhat embarrassing difficulty:

The sentry on duty one day at the gate of Hampton Court palace many years ago was asked the time by a young lady, the daughter of the widow of a distinguished soldier, who occupied apartments in the palace. She happened to be wearing a dainty apron, and, appearing to the soldier to be a neat lady's maid, his reply to her question was, "Half past kissing time," and—a kiss.

The indignant young lady fled to report the impertinence to her mother, who promptly sent a letter of complaint to the colonel of the sentry's regiment. The colonel regretted the occurrence and referred the lady, half in jest and half in earnest, to the commander in chief. To the highest quarter accordingly she went for redress and received the following reply:

Field Marshal the Duke of Wellington, while regretting the occurrence of which Miss Q. complains, begs to say that he has searched the army regulations and the articles of war, and he can nowhere find that kissing is a punishable offense from a military point of view. It is against orders for a sentry to converse when on duty, but in this instance it appears that Miss Q. opened the conversation, and the sentry, although he answered in an unusual manner, committed no actual breach of discipline.

Out of His Element.

"I don't believe I'll be able to find the room alone," frankly admitted the guest as he took his key from the clerk. He was accordingly intrusted to the care of the bell boy and for the tenth time since his arrival escorted to one of only twenty rooms on the fifth floor. "That man," said the clerk, "is perfectly sober, and if he were in Wyoming he could lose me on the plains in daylight, and do it easily, while he would find his own way through Stygian darkness, but he has been in the house for three days and is still unable to find his room alone. It only suggests the perplexity of the cat in a strange garret."—New York Tribune.

Elephant Rock.

Elephant Rock, the last remaining and the most colossal idol of the fast fading western Indians, stands out against the sky a few miles northwest of Meacham, in the Blue mountains. The tourist in making the journey through the mountains by the old stage road can look above him and see the giant elephant, molded in the rugged and crumbling stone as it juts out against the sky line, perfect in every part, and he will wonder as he gazes at the likeness at the perfect lines of the great hulk and its natural attitude as it stands stretching longingly toward the north.—New York Herald.

Wanted Her Money's Worth.

A lady who knew that her servants were reading a certain serial inquired of the cook her opinion of the story. "Well, ma'am," was the reply, "we wanted to know what became of Mr. Treberne." The mistress explained that Mr. Treberne was but a minor character and that something must be left to the imagination of the reader. The cook considered and retorted, "But I cou'd 'old with paying a 'alfpenny a day for me story and then 'aving to think for meself."—London Chronicle.

CAN YOU SOLVE THIS?

A Problem That Seems Simple, but That Will Invite Discussion.

How much greater than three-fourths is four-fourths?

At first sight it seems an easy question, but put it to your arithmetical friends and you will probably find that it will divide them into two parties, one contending that the answer is one-fourth and the other as positively affirming that it is one-third, while both will be ready to prove the accuracy of their respective solutions.

The party of the first part (to use a legal phrase) may argue their point in this way:

Five shillings is the fourth part of a pound. If you have 15 shillings, or three-fourths of a pound, and somebody gives you another fourth part you have a sovereign—ergo, your four-fourths is one-fourth greater than three-fourths.

But this will not suit the other party at all, and they will proceed scornfully to point out that the argument is all wrong, since if you have 15 shillings and somebody is generous enough to add 5 shillings to it the donor is only giving you one-third of the amount you already possess (5 times 3 equals 15), therefore your sovereign is only one-third more than your 15 shillings.

It is a pretty problem, and expert accountants have been known to wrangle over it for hours.—London Answers.

SCIENTIFIC FARMING.

The Way Long Tongued Bees Saved Australian Clover.

A clerk in the department of agriculture said:

"So you think that scientific farming is a bluff? You demand some illustrations of the good that is accomplished by the scientific method? Very well.

"When clover was first introduced into Australia it grew there beautifully, but it never seeded. The soil was all right. The climate was all right. What, then, was the trouble?

"A scientist studied the matter, and this is what he found:

"He found that the native Australian bees had tongues too short to reach the clover's pollen forming organs. These organs in red clover are hidden deeply in the heart of the tubelike petals and they can only be fertilized by the long tongued bumblebee. If red clover is not visited by bumblebees, who bear the golden pollen grains from one blossom to another, it never seeds—it cannot be grown. The scientist, aware of the fact, soon put his finger on the barren Australian clover's trouble. He imported a lot of long tongued bumblebees. These bees flourished, and immediately Australian clover, which had promised to be a failure, became one of the country's richest and finest crops."—Chicago Chronicle.

GEN. LEE ADDRESSES SOLONS.

He Urges an Appropriation for Monument for Georgia's Soldiers.

Atlanta, July 14.—General Stephen D. Lee, commander in chief of the United Confederate Veterans, made an eloquent and stirring appeal before both houses of the general assembly Wednesday at noon asking for an appropriation for a monument at the Vicksburg National park in honor of the Georgia soldiers who lost their lives in the famous siege of Vicksburg during the civil war.

The aged commander with his silvery hair, but keen blue eyes and youthful bearing, judging from the ringing applause with which his address was often punctuated, made a forceful impression upon the general assembly, and it is believed that Georgia's legislature will make a sufficient

GENERAL S. D. LEE.

appropriation for an appropriate monument at Vicksburg.

The joint session of the general assembly was called to order promptly at 12 o'clock noon, when Speaker Slaton of the house, surrendered the gavel to President West, of the senate.

In a few well-chosen words, President West spoke of the glory and honor shed upon the southland by the heroic deeds of the men who for four years wore the gray, and of the pleasure which it gave the general assembly of eGorgia to hear the "distinguished commander of that army still mighty in spirit though decreased in numbers."

The instant General Lee stepped upon the speaker's stand a hearty applause greeted him from the full gallery and crowded floor of the chamber. He began his address by thanking the general assembly for the honor conferred upon him.

Tobacco Trust Buys Out Big Rival

Pittsburg, July 14.—Official announcement was made here of the sale of property, goodwill and entire business of the Weyman Bros.' company to the American Tobacco company, commonly known as the tobacco trust. The consideration is placed at between $1,500,000 and $2,000,000. The acquisition of this company will give the American Tobacco company an absolute monopoly of the snuff business in this country and will also dispose of their most formidable rival in the tobacco business.

Improvement on the Wireless.

New York, July 14.—An improvement in wireless telegraphy is announced by Professor Graun, of Strassburg, the inventor of the system which bears his name, says a Berlin dispatch to the Times. The professor has succeeded in directing wireless electrical waves in a single direction. Up to now it has been possible only to transmit waves in all directions. Much energy is saved by the new invention.

Eight Killed by Explosion.

Oakland, Ca., July 14.—William Bower and Seven Chinese were killed this morning by an explosion at the Giant Powder Works, 1 miles from here. The explosion occurred in the packing house and all the men at work there were killed. Fire broke out after the explosion and unless it can be checked, other explosions will follow.

Death From Strangulation.

Indura, Ark, July 14.—Walter Weldon, a negro, was hanged here for the murder of Lizzie Cantley, a negress, last December. The fall did not break Weldon's neck and he died from strangulation and in 14 minutes was pronounced dead.

Servant Girl Problem Solved.

Appleton, Wis., July 14.—The servant girl problem in this district has been partially solved by the employment of Indian girls who have graduated from the government school. Several are now in the kitchens of families here, receiving the same wages as white girls.

Large Failure Affects Charleston.

Charleston, S. C., July 14.—Representatives of the bankrupt Independent Cotton Oil company met in the city of Charleston and appointed July 26, at Darlington, for a meeting of the creditors. It is now estimated that the liabilities will reach $800,000 and the principal assets are a number of mills and ginneries which might not bring one-third of that amount on the block. Charleston is said to have lost about $375,000 in the failure. It is fully expected that the entire stock issue of $1,000,000 will be wiped out. The failure is far reaching and banks have been hard hit in many eastern as well as southern cities.

Life Sentence for Murderer.

Buchanan, Ga., July 14.—The jury in the case of the state versus A. G. Tolbert, on trial for the murder of W. A. Reid, who was killed July 4, 1899, returned a verdict finding the defendant guilty of murder and recommending him to the mercy of the court. The judge sentenced Tolbert to life imprisonment. This is the third trial of the defendant and has aroused an unusual amount of interest. On both former trials the defendant was found guilty of manslaughter.

Big Sale of Spot Cotton.

Camilla, Ga., July 14.—Today Judge L. A. Bush sold to the Georgia Cotton company of Albany 800 bales of cotton of which he owned the controlling portion. The price received was 10¼ on the basis of Liverpool middling. The total amount received was about $42,000. There is very little cotton left in the country, as this was the part held by the growers of this section.

Explosion Wrecks Extract Plant.

Bristol, Va., July 14.—An explosion in the Dixie extract plant here, wrecked the room and all the machinery and instantly killed Noah Hardin and fatally injured another man. The cause of the explosion is a mystery. Hardin's bowels were torn out by the explosion. A large piece of casting was thrown through the walls and roof and was landed 1,000 feet away.

Bent Her Double.

"I knew no one, for four weeks, when I was sick with typhoid and kidney trouble," writes Mrs. Annie Hunter of Pittsburg, Pa., "and when I got better, although I had one of the best doctors I could get, I was bent double, and had to rest my hands on my knees when I walked. From this terrible affliction I was rescued by Electric Bitters, which restored my health and strength, and now I can walk as straight as ever. They are simply wonderful." Guaranteed to cure stomach, liver and kidney disorders; at all drug stores; price 50c.

Fanatic Blew Up Saloons.

Iola, Kans., July 14.—Two hundred armed men under the direction of Sheriff Richardson started a search of the country around about Iola for C. L. Melvin, the temperance fanatic, who has been in hiding since the destruction of three Iola saloons by dynamite, and who is believed to still have in his possession a great quantity of dynamite with which he has threatened to cause further destruction. Many citizens have joined in the chase, which soon developed into an excited man hunt.

French Deputies Grow Angry.

Paris, July 14.—There was a violent scene in the chamber of deputies today during the debate on the amnesty bill. M. Lasces (anti-Semite) opposed the granting of amnesty to those convicted of drawing up secret military reports and attacked General Andre, the late minister of war, calling him a "reptile." M. Bertreau the minister of war, protested against M. Lasces' remarks, and left the chamber, causing great confusion and compelling the president of the chamber to suspend the session.

Forced to Starve.

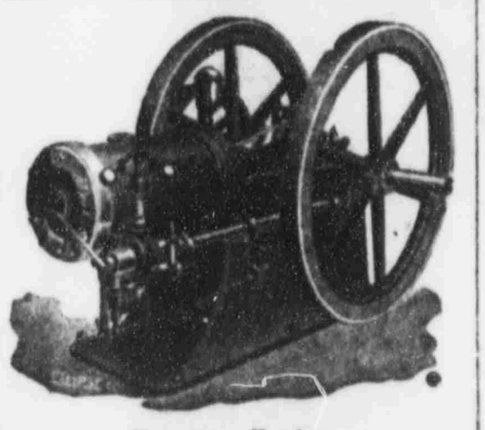
R. F. Leek of Concord, Ky., says: "For 20 years I suffered agonies, with a sore on my upper lip, so painful, sometimes, that I could not eat. After vainly trying everything else, I cured [illegible]'s Arnica Salve. It's

The Dead of the Sea.

An inquisitive Frenchman has thought it worth while to ask what becomes of the bodies after death of the numberless fish and other living creatures that fill the sea. Of course they all die sooner or later, and yet it is an occurrence so rare as to be practically unknown for anybody who lives beside or on the ocean to come across the "remains" of even a single victim of the fate that awaits all things mortal. In the profounder depths putrefaction cannot take place, so if the dead fish once reaches those calm, chill abysses he would be preserved until the end of time. Probably, however, no such peaceful repose awaits more than an infinitesimally small proportion of the finny folk, and no great accumulation of lifeless bodies exists at the bottom of the sea. The living eat the dead before they can make the long, slow journey downward. As a matter of fact, extremely few fish, and perhaps none, ever meet what is known as a "natural death." Almost always they are slain and devoured and so put definitely out of the way.

A Surprise Party.

A pleasant surprise party may be given to sour stomach and liver, by taking a medicine which will relieve their pain and discomfort, viz: Dr. King's New Life Pills. They are a most wonderful remedy, affording sure relief and cure for headache, dizziness and constipation. 25c at all druggists.



Kerosene Engine.

Absolutely the safest and most economical power now on the market. All sizes—1½ to 20 horse power. Write for prices.

This engine is not a "Jack at all trades" with dynamos or batteries and sundry triggers to keep you "puzzled," but it IS a "Cracker Jack" to do your work, and no mistake. Sold under full guarantee or your money back. Simplicity itself.
